Evaluation of the first mobility of Erasmus+ project „Call of Poseidon“

First mobility of Erasmus+ project „Call of Poseidon“ was in Sicily, Italia from 25th to 29th of October 2021. The name of the mobility was „Water Creates Civilisation“.

In the proces of evaluation participated students, parents and teachers of all the schools in the project: IOS LOS Montecillos (Coin, Spain), Eduardo De Amicis (Tremestieri Etneo, Catania, Italia), British Junior (Eskilstuna, Sweden), OŠ Meterize (Šibenik, Croatia).

Teacher evaluation

Teachers from all 4 countries have filled in the evaluation form. The expectations are not completly fulfilled because of the wheather conditions. A lot of activities had to be done online and that was not something our hosts could affect on, but all the activites have been done which is the most important. Training course was excellent, we all agree. Interesting meeting in spite of weather troubles.

Students evaluation

Students agree that they had wonderful experience, that they have learned a lot. They have learned the names of the differents fishing traps, of the boats, how the fishermen fish the tuna and the fishing tradicions, also that the water is someting really important in Italy. Further, they have learned how water created civilisation in Italy.

This was and incredible experience.

I have made friends for life.

I have learned a lot about Italian culture and traditions.

I have seen a lot of sights in Catania/Tremestieri Etneo.

Parents evaluation

- This was an unforgettable adventure. Children will remember it all their lives – conclusion of parents in evaluation.

This was and incredible experience.

I have made friends for life.

I would participate in Erasmus+ project again.

My child is satisfied with this experience.

The results of the evaluation are a valuable indicator for the all schools that are in this project for further verification project activities, but also for the organization of the educational process and extracurricular activities.
