## **Evaluation of the second mobility of Erasmus+ project „Call of Poseidon“**

Second mobility of Erasmus+ project „Call of Poseidon“ was in Coin, Spain from 28th of March to 1st of April 2022. The name of the mobility was „Water Scarcity“.

In the proces of evaluation participated students, parents and teachers of all the schools in the project: IOS LOS Montecillos (Coin, Spain), Eduardo De Amicis (Tremestieri Etneo, Catania, Italia), British Junior (Eskilstuna, Sweden), OŠ Meterize (Šibenik, Croatia).

### **Teacher evaluation**

Teachers from all 4 countries have filled in the evaluation form. The expectations are completely fullfilled.

This is one of the statements from teachers:

*„It was very interesting. We have learned a lot about fishing in Mediterenian sea, about different animals who are living there. We saw same animals from different seas in Europe. Also, our students were scientists for few minutes.“*

[Više pojedinosti](#)

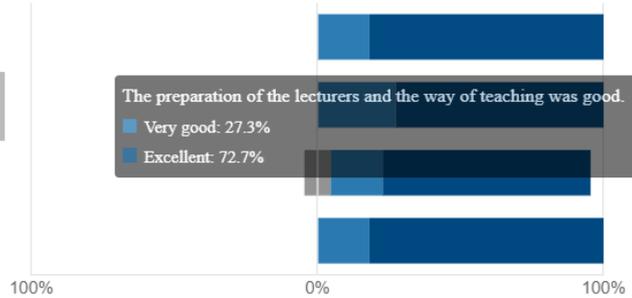

Bad Solid Good Very good Excellent

The topic of education is interesting and useful.

The preparation of the lecturers and the way of teaching was good.

The time devoted to education was sufficient.

I am satisfied with the overall organization of the education.

## Students evaluation

Students from all the countries are also very happy after this mobility. They say they liked this mobility very much and that they have learned a lot about Water scarcity.

[Više pojedinosti](#)

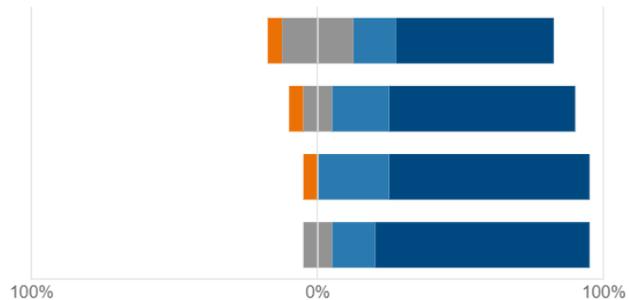

Bad Solid Good Very good Excellent

Project topics were interesting and useful.

I gained new knowledge.

We have also learned a lot about importance of water in Spain and in all other countries.

Water scarcity is big problem in european countries and we all should take more care about water.

## Parents evaluation

Parents from the students of all countries are satisfied with the mobility in Spain: with the hospitality of the hosts, all the activities that have been done, all the things their children have learned during the mobility in Spain.

Some of their comments:

*„I really liked this mobility as well as its organization and the hospitality of the people in Spain. Every day was full of adventures, fun and activities from which you can learn a lot about water conservation and its importance.“*

*„This experience was great for my son. He enjoyed a lot and learned many new things.“*

## Conclusion

The results of the evaluation are a valuable indicator for the all schools that are in this project for further verification project activities, but also for the organization of the educational process and extracurricular activities.
